

Young Women with Cancer Seminar
For women living with cancer between the ages of 20-40.

Regardless of how many friends and family members we have, we all experience events where we could use professional support. This can be especially true during cancer treatment. Together we can use this opportunity for healing and change.

Please join me on August 22, 2009 to discuss:

- *Adjustment/Coping with Illness.*
- *Psychosocial Issues*
- *Relationships*
- *How to talk to children/family/friends*
- *Fertility*
- *Body Image*
- *Financial Resources/Insurance*
- *Advanced Directives*
- *Peer Support/Networking*
- *What Next?*
